6-in-1 T3C Trainer

The 6-in-1 Tactical Combat Casualty Care (T3C) Trainer is comprised of a Hyper-Realistic™, anatomically similar male head and upper torso. It is constructed with a skeleton that utilizes user-repairable body skin, neck skins, tracheas, and user-replaceable intraosseous training pucks.

Procedures available on this system include the following:

1. Nasopharyngeal Airway (NPA) Adjunct Insertion (with Oropharyngeal visual confirmation of proper measurement and placement)
2. Clearing upper airway of obstructions (i.e. finger-sweep) with Oropharyngeal airway measurement and placement
3. Surgical airways (Quick-Trach®, Cricothyroidotomy, Cricothyroidcentesis, etc.)
4. Chest Needle Thoracentesis
5. Sternal Intraosseous Catheter Insertion
6. Proximal Humerus Intraosseous Catheter Insertion

For more information about purchasing the 6-in-1 Trainer and other Strategic Operations products, contact sales@caehealthcare.com
