

## CAEFX Simulated Wound Kit

Realistic moulage and wounds for more realistic training

Get real with moulage and wounds for your simulator!

CAE Healthcare takes realism to the next level with FX – a clinically-accurate set of moulage wounds to create special effects with any patient simulator. FX features life-like wounds that accurately replicate muscle, tissue, bone and subcutaneous fat to reflect the true physical nature of a wound and its treatment. FX includes CAE Healthcare's own educational learning tools – a set of educational wound treatment cards explaining procedures and learning objectives for both civilian and military Simulated Clinical Experiences (SCEs).

The more realistic the teaching environment, the more valuable the learning experience. Severe trauma situations can become a paralyzing environment for any first responder, military medic or civilian. FX provides an elevated training encounter that allows the instructor to bring horrific, incredibly realistic wounds into the world of simulation, thus better preparing learners for real world experiences.

# Technical Specifications

## Optional Equipment

- Amputation (iStan®)
- Face/Head Injury (iStan®, Apollo™)
- Impalement to the Leg
- De-gloving of the Hand
- Compound Fracture to Tibia
- Partial Arm Amputation
- Full Arm Amputation
- Partial Leg Amputation
- Burned Forearm
- Full Leg Amputation (Apollo™)
- Bullet Exit Wounds

## Ancillary Applications

- Simulated Glass
- Simulated Wax
- Make-Up
- Glycerin
- Cleaner
- Wheeled Carrying Case

# Key Features

FX was developed in part with the U.S. Army Research Development and Engineering Command, Simulation and Training Technology Center (RDECOM STTC) through the Severe Trauma Simulation (STS) Program.

FX is a complete moulage simulation solution that comes in a convenient flight case with organized product compartments.

## Standard Equipment

- 1 Abdominal Evisceration
  - 1 Calf Avulsion
  - 1 Open Head Wound
  - 1 Lacerated Thigh
  - 1 Compound Fracture – Arm
  - 3 Bruising Patches
  - 6 Bullet Holes
  - 3 Lacerations
  - 2 Fire Burns
  - 3 Electrical Burns
  - 1 Spider Bite/Decubitus Ulcer
  - 1 Blood Pumping System
  - Simulated Blood
- 1 Set of Wound/Treatment Cards
    - Abdominal evisceration
    - Blunt trauma bruises
    - Calf avulsion
    - Degloving of the hand
    - Electrical burn
    - Full arm traumatic amputation
    - Gunshot wound general
    - Gunshot wound high velocity
    - Head injury
    - Lacerations
    - Open fracture
    - Open head wound
    - Partial arm traumatic amputation
    - Partial leg traumatic amputation
    - Portable bleeding system instructions
    - Spider bite decubitus ulcer
    - Thermal burn
    - Traumatic leg amputation
