Proven clinical simulation management

The screenshot displays the CAE LearningSpace Enterprise interface. On the left, a 'Record control' panel includes an 'INTERCOM CONTROL' section with a microphone icon and a 'DATA ENTRY' section with a checklist for 'Essential Performance Measures for Asthma Management of the Patient in the Home Care Setting'. The main area shows three video feeds: 'Room/Lab 01', 'Room/Lab 02', and 'Room/Lab 03', each showing a simulation of healthcare professionals interacting with a patient. A 'Configurable patient monitor' is visible in the bottom right, displaying vital signs like heart rate (142), oxygen saturation (99%), and blood pressure (110/70). Labels with arrows point to these features: 'Built-in intercom control', 'Interactive timeline', 'Record control', 'Student assessment with compound checklist', 'HD video with on-screen PTZ control', and 'Configurable patient monitor'.

CAE LearningSpace Enterprise is a proven center management system with a 16-year track record and a community of experienced users around the world. Here are just some of its capabilities.

Record, Debrief and Assess

- Monitor one room or multiple rooms from anywhere
- Immediate viewing and sharing of video, simulator and medical device data
- Custom checklists / rubrics for learners, faculty, or standardized patients
- Self and peer evaluations, exams, and much more
- Web-based, secure, and plug-in free

Center Management from A-Z

- Customizable user roles, privileges, and group memberships
- Create, manage and distribute learning materials before, during, and after events
- Schedule videos to start/stop at predetermined times schedule pre-recorded announcements, and provide notifications to your participants
- OSCE Management: Easily create rounds, time-slots, and manage your entire OSCE from one screen
- Robust Standardized Patient tools including SP training, scheduling, and performance assessment

Dynamic Data Mining

- Customizable reports to see your data your way
- Track the use of your resources (rooms, simulators, personnel) by client
- Automatically generate reports quarterly/by semester/annually
- Generate and export utilization and allocation reports
- Common pre-set reports from individual performance, group performance, and inter-rater reliability
