

# Tactical Combat Casualty Care (TCCC/EMS) Cut Suit®

The main goals of Tactical Combat Casualty Care / Emergency Medical Services (TCCC/EMS) are to treat the casualty, prevent additional casualties, and complete the mission. The TCCC/EMS Cut Suit® is specially suited to accomplish these goals in training. It allows medical providers to treat the three primary causes of death on the battlefield on a live human casualty; massive hemorrhage, 'airway compromise', and 'tension of any training scenario'. The TCCC/EMS Cut Suit® is completely user-customizable and user-repairable, minimizing costly repairs and long term reoccurring costs..
